Time seems to be going by faster.

How are you two doing? Mary has high blood pressure, but has it under control. Otherwise, we are doing fine.

I have only one special project going. The DA in Philadelphia has solicited my help in finding IRA Einhorn, the guy with some interesting connections who left his girlfriend's body in a trunk and then told the world the CIA did her in. He then skipped bail. Bud probably knows about him.

Keep in Touch.

To wish you
a bright
and beautiful
Christmas season

Margaret and Dennis Hutchins
